

Introducing an entirely new way to
move people

EXPRESSJET
an entirely new way to move people

We didn't invent jet charter.
We revolutionized it.

ExpressJet has been at the forefront of aviation for over 30 years with divisions in commercial airline operation, jet maintenance services, travel booking, corporate aviation training and more. And it's from this experience that we've gained the knowledge needed to introduce a whole new way to move people. With a professional crew, dedicated staff and a young fleet of jets that can accompany up to 50 passengers at a time, ExpressJet is giving group travelers a comfortable, cost-effective and fully customizable travel experience like no other. It's our goal and our passion to make jet charter the ultimate and most satisfying solution to getting people where they need to be. This isn't group travel as usual. This is group travel revolutionized.

We spend most of our time in the air. So naturally, we want it to be clean.

It's now more important than ever for all of us to be more conscientious about our impact on the environment. At ExpressJet, we're constantly taking steps to make a difference. Our on-board recycling programs help reduce trash going into landfills. We also do what we can to lower fuel consumption and emissions. We accomplish this in part by flying one of the youngest, most fuel-efficient fleets in the sky. In fact, our jets burn an average of 360 gallons per hour – that's less than a DC-9.

Where we go

Where we go

From Canada to South America
and everywhere in between, we
can take your group to just about any
destination and back. We can also fly
into smaller airports* that get you closer
to where you need to be, shortening drive
times and reducing unnecessary delays.

We serve several destinations
throughout the U.S., but our
reach is much greater. Talk
with us about charters to
Canada, the Caribbean and
South America.

We go
where
you want
to go.

Yes, we even go there.

* ExpressJet operates under FAR 121 operating
rules – the highest category of safety.

Choose our 41-seat jets or go for the max with our 50-seat jets.

The decision is yours.

ExpressJet understands that every group travel situation is different. That's why we offer two different seat-configurations on our fleet of 30 jets.

Our **41-seat** passenger jets give you a little more room to spread out. The seats in this configuration even give you a 38-inch pitch – that's the same as a first class seat in a Boeing 737-800.

Want to send the most people you possibly can at one time? No problem.

Our **50-seat** jets let you maximize travel efficiency by allowing more people to travel together.

Those who travel with us get spoiled.

We wouldn't have it any other way.

When you think of flying on a budget, things like custom-catered meals, satellite radio and spacious leather seats don't typically come to mind. But ExpressJet isn't exactly typical. We do everything possible to make sure your experience with us is the best it can be, both in the air and on the ground.

Here is a sampling of why so many choose us:

- Custom leather seats with room to work or take a nap
- Over 100 channels of free XM® Radio at every seat
- Full menu of meal and drink options*
- Pillows and blankets for every passenger
- Fixed Based Operations (FBO) boarding means no security lines
- Maintenance dispatch reliability of 99.9%
- 24/7 in-house FAA-licensed dispatchers to monitor your flight
- Specialized team of professional and experienced flight crew
- FAA-licensed flight attendants
- In-house maintenance bases located across the country

* Looking for something special?
Talk with us about your custom requests.

Our people look after your people.

It's a specialty of ours.

Exceptional customer service from people who actually care. Those words are so important to us that we believe they should come across in everything we do. Whether it's our sales team helping you evaluate the costs and benefits of your options, or our specialty trained cabin crew making sure your trip is as safe and as comfortable as possible, we guarantee you'll be pleased with your experience.

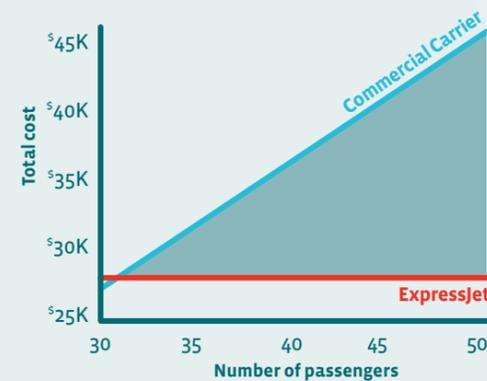

How cost-effective are we?

Do the math and see for yourself.

Here is a sample cost breakdown based on 35–50 passengers. Depending on your specific travel needs, ExpressJet can be more cost-effective than flying on a commercial airline for groups much smaller than this.

A local corporation is currently flying anywhere between 35–50 employees every week via commercial air carrier from Central Florida to Washington, D.C. The only flight option is to connect through a major hub in Atlanta. This cost scenario below will reflect the cost benefit of chartering with ExpressJet given the assumptions listed below.

	NUMBER OF PASSENGERS		
	35	40	50
Airfare for a Commercial Carrier* <i>\$393 per person</i>	\$13,755	\$15,720	\$19,650
OTHER EXPENSES			
Mileage, Parking, Tolls	\$2,774	\$3,170	\$3,963
Meals and Lodging†	\$9,604	\$10,976	\$13,720
Opportunity Cost‡	\$5,469	\$6,250	\$7,813
TOTAL COST	\$31,602	\$36,116	\$45,146
ExpressJet Charter†	\$27,600	\$27,600	\$27,600
SAVINGS	\$4,002	\$8,516	\$17,546

Assumptions/sources:
 * Fare from commercial airline's Website; 7-day advance purchase, non-refundable 11/2008
 † ExpressJet Charter pricing represents daily departures on a weekly basis
 ‡ Overnight lodging at a Courtyard by Marriott near IAD
 § Overnight opportunity cost assumes 2.5 travel hours saved at \$39.06 per hour (on a \$75,000 salary and 1,920 labor hours annually)

Results of choosing ExpressJet?

This local corporation is now more productive, building stronger relationships through face-time with clients and saving money by eliminating costs associated with overnight stays, meals and other related expenses.

We keep everyone smiling.

Even those paying the bills.

Group travel with us means an enjoyable, hassle-free flying experience like no other. But how much does it cost? Good question. One we love to answer because this is where we truly get to shine. But before we do, let's evaluate what you face with other forms of travel:

What if your group flies on a commercial airline?

- Individual ticket costs
- Lack of scheduling flexibility
- Security delays and hassles
- Connecting flight delays
- People on multiple flights with varying departure and arrival times

What if your group buys a company jet?

- Price of acquiring jet
- Storage costs
- Separate crew costs
- Maintenance costs

What if your group takes a bus?

- Delays from unforeseen traffic and road construction
- Delays from mechanical failure
- Overnight accommodations cost
- Slow travel time (60 mph vs. 500 mph on a jet)

So, what about ExpressJet? To get an idea of how much flying with us will cost, we've put together a cost-benefit analysis that helps outline what you spend and what you save by choosing us.

What you save

What you save

Efficient. Comfortable. Cost-effective.

Been there. Done that.

We've helped a lot of groups better address their travel needs. Here is just a sampling of what travel challenges others were up against and how we solved them. What you'll see is that no two situations are alike, so we approach each one differently. Take a look.

"Until ExpressJet, we hadn't fully realized how efficient and cost-effective shuttling our crews to and from our drilling platforms could be. Now we have everyone where they need to be when they need to be there, preventing lost production time, which would cost us millions."

Carolina Moncada
Air Transport Supervisor, Petrobras

"We have insanely crazy schedules, so for us to be able to hop on our own private plane and know we are all accounted for makes traveling to gigs as easy as can be. Oh, and the flight attendants provide the best customer service for everyone on the flight."

Greg Grunberg
Band From TV drummer and star of NBC's Heroes

"My clients need flexibility, from flight schedules to catering. ExpressJet provided that and more. My clients were extremely happy, and that makes me happy."

Seth Shomes
CEO, Day After Day Productions, Inc.

"The whole band gets to travel together, so we all get to our gig together. Plus, we can plan our performance during flight. ExpressJet just makes life easier."

Bob Guiney
Band From TV vocalist and Host of TLC's Date My House

You've waited long enough.

A better way to move your people is now here.

Call **1-877-CORPFLY** for a no-obligation cost-benefit analysis or visit **expressjet.com** to learn more.

Now that you've gotten a peek at what ExpressJet can offer, the only thing left to do is to talk with us about your specific group travel needs. Our team is dedicated to providing you with the most comfortable and most cost-effective way to fly. Whether you need a single flight or a weekly shuttle service, it's our goal that you get the most for your money and your people get to their destination and back quickly, easily and safely. This is an entirely new way to move people. Are you ready?
